

Why DIGITAL TRANSFORMATION?

- COVID 19 crisis resulted in a significant increase in online learning by adults.
- Adult education organisations are not prepared to integrate digital technology into training.
- Adult educators lack professional training in order to be prepared for the digital transformation to online training.
- Low-quality online training could not ensure the active inclusion of learners into the learning process; it results the resistance of learners to be involved in digital education.

The aim of the TRANSFORM

TRANSFORM aims to develop Learning Hub “Digital transformation” to support adult educators and adult education organisations in the path to digital transformation for high-quality inclusive online training corresponding to learners’ needs.
